HELLO

With a proven track record of successful achievements, I am pleased to present my application and CV for your consideration as a Developer. Having several years experience in the industry, and a strong educational background, I strongly believe I can make a significant contribution to your team. My web developing expertise includes: Designing, building and maintaining web applications. I possess extensive knowledge of PHP, JavaScript, CSS3/Sass and HTML5. Moreover, I have a thorough understanding of database architecture. Furthermore, I possess excellent communication skills and can liaise effectively with both clients and work colleagues.

My strengths and qualifications are many, and my dedication and work ethic are strong. Over the course of my career, I have focused on delivering beautiful web applications while constantly refining my technique and becoming more efferent. I consistently try to find new ways to reduce costs. I would like the opportunity to show how you can put my experience to work for you.

Other strong points include an ability to work as part of a team or individually, multi-task, prioritize and work to deadlines under pressure. Not to mention, I can make a pretty good cup of coffee. Therefore in view of all of the above I would greatly appreciate if you consider me to take part in any upcoming or legacy projects. I am available to come in for an interview at any time, and would appreciate the opportunity to meet with you and your staff. I hope that I am granted an opportunity to talk and perhaps meet with you in the very near future. Hope to hear from you soon.

Nate S

Yours sincerely,
Nathan Shumate
